

EVZ2 CONNECTOR

Wire-to-wire/Panel Mount connector

This connector is wire-to-wire, waterproof panel mount connector.

It is possible to connect inside and outside of the case with harness by mounting male connector to the case.

■ Features

- **3 pieces structure**
The case mounted male connector connects inside and outside of the case with harness.
- **Sealed**
Only attaching male connector to case body, it ensures waterproof performance.
Double seal structure of surface and shaft seal realizes the strong waterproof property.
- **Variation**
Lineup of 10, 27 and 36 circuits.
Terminal plating is selectable from gold-plated or tin-plated.
